Testimonials

“We could not have been happier with our adjuster. He was polite, explained everything, very personable, has kept in touch with us by email on everything that is going on, someone that we would like as a friend and definitely someone we would call if we ever got flooded again.”

“Our adjuster was very prompt in making contact and setting up our meeting to see my damaged home. She was very assuring that my claim would be handled professionally and fairly. Her comments and questions let me know how versed she was in handling a flood claim like mine. I felt confident that the estimate of my damages and my settlement would be handled as quickly as possible. I would say that our adjuster conducted herself as a true professional in handling my claim, and she was a pleasure to work with.”

“Our adjuster was extremely knowledgeable in the entire claim process! This being my first business claim, I was hesitant how this would go. Our adjuster answered every question I had, was available anytime I called or emailed or responded within that day. It was nice having an adjuster that made you feel like they "care" about you and your loss and not just looking at this as a "job" or "income," it was more than that. Thank you for your extreme professionalism, patience with all my questions, organization, the list could go on. Your team is very lucky to have you work with them!”

“Everything went great. My adjuster really went above and beyond to make sure we understood things. He made us feel much better. Also the staff we spoke with over the phone was also excellent. Thanks everyone.”

“Our adjuster turned a horrible situation into a tolerable one. He is kind, courteous and detail oriented. He is one of if not the finest service individuals our family has ever dealt with. ”

“My claim adjuster really helped me through this tough experience. I was quite emotional and upset about the whole hurricane and how it affected me and my neighborhood and everyone’s life and personal property. I had expected to have a difficult experience with the insurance claim but she was so thorough and professional it was quite a relief for me. I really do appreciate her - and the others that handled my claim. They actually helped bring a little comfort to the whole situation and I am very grateful for that.”

“Excellent customer service and am very satisfied. Keep up the great work!”

“Extremely competent assessment of damages made”

“Our adjuster was extremely professional, thorough and courteous.”

“Our adjuster was so patient with me even knowing that I was in complete shock over what had occurred. He cared...actually cared. If I had a question and emailed him he responded so quickly. He has compassion for his clients and that says a lot about him and the company that employs him.”

“Our adjuster was a thorough and thoughtful adjuster. I doubt if you can find anyone better! We really appreciate all that he did and continues to do even after completing our claim.”

“This was my first time filing a claim so our adjuster seemed to understand how stressful this was due to my loss. He took time to explain everything to me and was very knowledgeable. He was very kind and professional!!!”
